## Acronyms/Definitions

**ED - Emergency Department Hospital Program** - a comprehensive approach to SUD for individuals who present to the ED can include screening, referral to treatment, providing naloxone, and Peer Recovery Support Specialist consult.

**HRP - Harm Reduction Program** - refers to the use of practical strategies and ideas aimed at reducing the negative consequences associated with drug use.

**LEAD - Law Enforcement Assisted Diversion** - a pre-booking diversion program aimed at diverting low level criminal offenders away from incarceration and into treatment so that they can receive definitive care for their underlying addiction.

**MAT/MOUD - Medication-Assisted Treatment/Medications for Opioid Use Disorders** - refers to the three U.S. Food and Drug Administration approved medications used to treat opioid use disorder: Methadone, Buprenorphine, and Naltrexone.

**QRT - Quick Response Team** - teams who contact people within 24-72 hours of an overdose to connect them to treatment and other services.

**START - Sobriety Treatment and Recovery Teams** - an early intervention program for families affected by substance use disorder

**SUD - Substance Use Disorder** - the recurrent use of alcohol or drugs causing clinically significant impairment, including health problems, disability, and failure to meet major responsibilities at work, school, or home.
