Acronyms/Definitions

ED - Emergency Department Hospital Program - a comprehensive approach to SUD for individuals who present to the ED can include screening, referral to treatment, providing naloxone, and Peer Recovery Support Specialist consult.

HRP - Harm Reduction Program - refers to the use of practical strategies and ideas aimed at reducing the negative consequences associated with drug use.

LEAD - Law Enforcement Assisted Diversion - a pre-booking diversion program aimed at diverting low level criminal offenders away from incarceration and into treatment so that they can receive definitive care for their underlying addiction.

MAT/MOUD - Medication-Assisted Treatment/Medications for Opioid Use Disorders - refers to the three U.S. Food and Drug Administration approved medications used to treat opioid use disorder: Methadone, Buprenorphine, and Naltrexone.

QRT - Quick Response Team - teams who contact people within 24-72 hours of an overdose to connect them to treatment and other services.

START - Sobriety Treatment and Recovery Teams - an early intervention program for families affected by substance use disorder

SUD - Substance Use Disorder - the recurrent use of alcohol or drugs causing clinically significant impairment, including health problems, disability, and failure to meet major responsibilities at work, school, or home.
