Support Services

BIO FOR

**Emily G. Finomore, LPC**

Outpatient Manager | Child and Adolescent Therapist

Emily Finomore serves as a child and adolescent therapist as well as the outpatient clinic manager for WVU Medicine, Behavioral Medicine. Her previous work experience includes; 10+ years of working in various capacities of child welfare systems, clinical work in family treatment drug court, implementing a large scale research project at the Air Force Academy, and operating a private practice. Her area of clinical focus has been complex developmental trauma. In an effort to support the communities of West Virginia as they work to meet the challenging needs of these children, she has trained front line staff, educators, and behavioral health professionals, as well as families, on understanding the neurodevelopmental effects of complex trauma and appropriate interventions to support regulation and healing.
